3Y0J BOUVET ISLAND DXPEDITION PRESENTATION. Steve, W4DTA, hosted an Association of Amateur Radio of Venezuela, Santiago de Leon de Caracas Chapter (YV5ARV), ZOOM presentation on the Bouvet Project 2022. The 3Y0J

guest speaker was Mike Crownover, AB5EB. Please note that Mike spoke all in English, and Steve did his best to translate the Spanish. The video is about 1:55 long, and can be viewed on YouTube.com at:

<https://www.youtube.com/watch?v=-IGfj87NI7A>

3Z15/HF150, POLAND (Special Event). Members of the Klubu Lacznosci (SP2KFQ) are active as HF150KCH from their club station in Chojnice until November 30th. Activity is part of the diploma campaign in connection with the 150th anniversary of the first railway line in Chojnice. QSL via PZK Bureau OT09 to SP2KFQ.

5H, TANZANIA. Vladimir "Vlad", OK2WX, will be active as 5H3WX from Michamvi Kae, Zanzibar (AF-032), as of November 10th through December 3rd. Activity will be on 80-10 meters using CW and SSB, with an IC-7300 into a Spiderbeam (20-15-10m) and Delta loops for 40 and 80 meters. QSL via HA3JB.

5X, UGANDA. John Paul, KN6NNF, is currently active as 5X3Z from Kubamitwe, and has been heard on 20/10 meters FT8. According to "The Daily DX", John Paul can be active on 80-10 meters FT8 using a FTDX5000 into dipoles and a hexbeam which is not up yet. John Paul is there as a missionary. Also mentioned by TDDX is that John Paul's son (Jack) is currently waiting for a Ugandan call sign. QSL 5X3Z via LoTW.

6O, SOMALIA. Ali, EP3CQ, is once again active as 6O100 from Mogadishu until sometime during the first week in December. Activity has been on 30 meters FT8/FT4. As always, his activity will be limited to his spare time because he works for the UN Department of Safety and Security (UNDSS) in Mogadishu. He informs OPDX that his activity will be on all bands (depending on the propagation, NO 160m), mostly on 40/30/20 meters FT8, but also on CW and SSB. Ali suggests to watch for him on after 1800-1900z until 02400z. His rig is a FT-450D w/100 and 180 watts into a Little Tarheel II and SE-360. The 6O100 station is currently the only active and licensed Amateur Radio Station in Somalia. Ali mentioned that he will be leaving for Christmas, but will be back again during the second week of January. QSL direct to: Ali Solhjoo, Schnackenburgstr. 3, Berlin 12159, Germany. QSL cards will be replied on a bi-monthly basis. IRC's are not accepted. Ali is also looking for some kind of support to help update his equipment. For updates, it is suggested to watch QRZ.com or Twitter (<https://twitter.com/EP3CQ>).

9N, NEPAL (Update). Robert, S53R/9N7AA, posted the following on QRZ.com, November 9th [edited]: "9N7AA license has been issued and limited operation will start soon. Equipment from my previous operation is still stuck in Kabul and we are trying hard to bring it to Kathmandu.

I have brought two TS590SG radios and a few basic accessories in my suitcases. A small multiband vertical has been installed temporarily until I move to my permanent residence, where Ultra Beam/WIMO 2 element Yagi (40-6m) will be installed at 25m+. Will still have to figure out 160/80m due to very limited space. Note that 60m band is not permitted in Nepal. Our new residence is a high rise with a clear shot towards EU and US. The problem in very heavy QRM, due to messy power lines and all kinds of man-made interference, is a serious problem in densely populated Kathmandu."

Robert also announced that he will be in the CQWW DX CW Contest (November 27-28th) as a Single-Op/All-Band (40/20/15/10m only) entry. QSL goes via S57DX, direct only, and of course, LoTW and ClubLog will be updated at least once a week. OQRS will also be enabled soon.

Please note that 9N7AA was previously issued to Andy, UA3AA. QSL for

Andy's operation in March-April 2014 goes via Andy Gromov, PO Box 873, Brooklyn, NY 11230, USA.

C9, MOZAMBIQUE. YL Elvira, IV3FSG, will once again be active as C92R from Mozambique between now and November 30th. Usually, her activity will be limited to her spare time on 80-10 meters using SSB, RTTY and PSK31. She will probably be there working on a project for the Informatici Senza Frontiere ONLUS. She will be looking for some financial support (see QRZ.com). QSL via IK2DUW, direct, by the Bureau or ClubLog.

D6, COMOROS. Don, N6ZO, will once again be active as D60AB from Comoros Islands (AF-007) between November 22-29th. Activity will be on various HF bands using CW and SSB. He will also participate in the CQWW DX CW Contest (November 27-28th). QSL via his home callsign.

DT8, SOUTH SHETLAND ISLANDS. Lee, DS4NMJ, part of a scientific team, continues to be very active from the King Se-Jong Korean Antarctic Base on King George Island (AN-010), South Shetlands (VP8/SH), as DT8A until December 31st. Activity will be on various HF bands using CW, SSB and FT8, with 100 watts. He has been heard on 80/40/20 meters using mainly FT8 (F/H) at various times, also on CW. QSL via DS5TOS.

E5, SOUTH COOK ISLANDS. Pete, ZL4TE, is expected to be active as E51RMP from South Cook Islands starting sometime in mid-January for approx 10 days (per DX-World.net). Main activity will be from Rarotonga (OC-013), with a possibility of a side-trip to Aitutaki (OC-083). Activity is usually holiday style, QRP on various HF bands and some VHF Digimodes using CW and SSB with a Yaesu FT817. QSL via his home callsign.

E7, BOSNIA AND HERZEGOVINA. Look for special event station E7BOSNIA to be active from the three royal cities of Bobovac, Visoko and Jajce, to celebrate the "Statehood Day of Bosnia and Herzegovina[BiH]" (November 25th), between November 14-28th. Activity will be on 160-10 meters using CW, SSB and FT8. QSL via E73Y. A special "ROYAL CITIES OF BIH" diploma will be available, see (<https://www.qrz.com/db/E7BOSNIA>) for more details.

FH, MAYOTTE. Don, K6ZO, will be active as FH/K6ZO from Mayotte Islands (AF-027) between November 15-22nd. Activity will be on various HF bands, using CW and SSB. QSL via K6ZO.

FJ, ST. BARTHELEMY (Reminder). Dario, KP4DO, will be active as FJ/KP4DO from Gustavia, St. Barthelemy (NA-146) between November 19-24th. Activity will be on 40/20/17/10 meters, but mostly on 20 meters, depending on the propagation. QSL via KP4DO direct. A special QSL card is being designed.

FS, ST. MARTIN. Philip, K0CD, will be active as FS/K0CD from St. Martin Island (NA-105) during the CQWW DX CW Contest (November 27-28th), as a Single-Op/QRP-Power/Single-Band (40 or 20m) entry. Look for him to possibly be on the air the Thursday or Friday before the contest. QSL via K0CD.
